GFM wins Anugerah Kontraktor Cemerlang

Focus Malaysia 09 Jul 2018 16:32

GFM Services Berhad ("GFM" or "the Group") wholly owned subsidiary Global Facilities Management Sdn Bhd has won the Public Works Department's / Jabatan Kerja Raya ("JKR") *Anugerah Kontraktor Cemerlang*. GFM was the recipient of the award for the provision of building facility management services at the Sultan Iskandar Building which is the Customs, Immigration and Quarantine ("CIQ") Complex in Johor Bahru.

GFM has been involved since 2007 for the provision of Building Maintenance and Management services for the CIQ Complex in relations to, among others, information and communications technology, mechanical and electrical services systems, civil and engineering and custodial services.

Encik Ruslan Nordin, Managing Director of GFM said, "We are very proud to have won this respected award as it demonstrates our client's satisfaction and appreciation towards our quality of service. We have worked on the CIQ Complex for 10 years since its inception and hope to continue to manage this asset for the government. This award is a recognition of the effort and dedication of GFM's employees and we hope to continue our pursuit of service excellence to drive our business to new heights."

The *Anugerah Kontraktor Cemerlang* is accorded annually to the winning contractor measured against a stringent set of criteria pre-determined by JKR in terms of quality of work, timely delivery and consistent performance. The award is aimed at recognising companies with best practices to further promote and elevate the industry's standards in Malaysia.

The CIQ Complex acts as a main transportation hub between Singapore and Malaysia, housing various government agencies including the immigration and customs checkpoint for land vehicles with the capacity to handle 70 million visitors annually.
