KUALA LUMPUR (Bernama) – GFM Services Berhad’s wholly-owned subsidiary, Global Facilities Management Sdn Bhd (GFMSB) has bagged a contract to provide operations and maintenance (O&M) services at Pengerang Integrated Complex (PIC) Village 1 & 2.

The O&M works also cover all associated facilities, non-process building and gate houses at PIC.

In a Bursa Malaysia filing today, the integrated facilities management service provider said it secured the three-year contract, commencing on Sept 14, 2020, from PRPC

Utilities and Facilities Sdn Bhd and PETRONAS Refinery and Petrochemical Corporation Sdn Bhd.

Under the Letter of Award, GFM's scope of services comprises O&M services of buildings, common facilities and utilities, preservation of buildings and facilities, canteen operations and catering services, pantry consumables and stationeries supplies, PIC muster point maintenance and others.

Meanwhile, GFM executive vice-chairman Ruslan Nordin said the newly-clinched deal marked the company's second undertaking, providing FM services at the PIC.

"We had previously provided workers camp management services during the construction period of a steam cracker plant there.

"Hence, the contract win is a testament to our client's confidence in our capability to deliver quality and timely service. This marks a significant addition to the group's project portfolio as it has enabled GFM to gain further traction in the oil and gas sector," he said.

GFM expects the contract to contribute positively to the group's earnings and replenish its outstanding orderbook.
